

Basic Color Sorting

Sort the colored shapes into matching bins!

 **Grown-up:** cut out the shape cards.  **Little one:** drop each shape into the bin that matches its **COLOR!** Starter level — shapes only, no tricky objects yet.

 **Cut these out (dashed lines)**

 **Grown-ups:** cut along the dashed lines. Say each color name out loud as your child sorts!

★ **Shapes sorted! When this feels easy, move on to the Primary Color Sorting sheet with real objects.**
