

 MIXED 3D SHAPES

3D Shape Master!

Review every solid shape.

 Color every 3D shape, then write its name! Sphere, cube, cone, cylinder, rectangular prism, pyramid — can you name them all?

 Parent tip: This is the ultimate 3D review. If your child mixes two up (cone vs. pyramid is the classic!), compare them side by side: “round bottom or square bottom?”

 Color each 3D shape & say its name!

 Write the name under each shape!

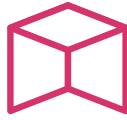

.....

.....

.....

.....

.....

.....

Final challenge: Gather one real object for each 3D shape — a ball, dice, party hat, can, box, and block tower. Line them up with the sheet and match each object to its picture!
