

Make Your Own Calendar

Build a 12-month flip calendar!

 Let's build a calendar! Follow the steps to make your very own 12-month flip calendar!

1

Cut out 12 small rectangles from paper — one for each month!

2

Write one month name on each card and draw a tiny picture for it!

3

Stack the cards in order and staple or clip the top!

4

Decorate the cover with your name and hang it on the fridge!

My 2026 Calendar
