

Circle & Square Sorting Activity

Just two shapes — perfect first sorting game!

 1) Cut out all 10 shapes. 2) Round ones go with the circle, pointy-corner ones go with the square!

CIRCLES
round like a ball

SQUARES
4 corners like a box

 Cut out these shapes, then glue each one in the right box!

★ Grown-up tip: before cutting, ask your child to point to each shape and name it out loud!
