

Count Mixed Shapes Activity

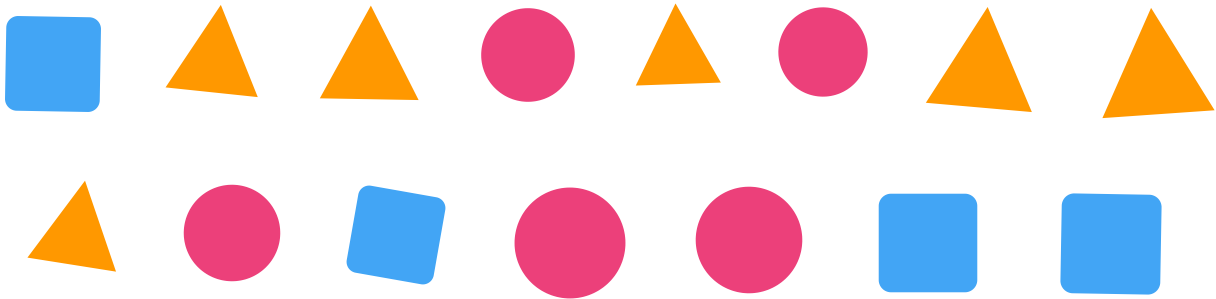

Circles, squares & triangles — count each group!

12
34

1) Look at the big mixed-up picture. 2) Count only the circles, then only the squares, then only the triangles — write each number!

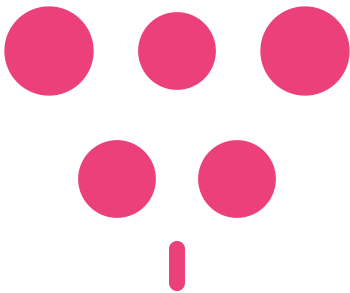

12
34

Look closely — three shapes are hiding here!

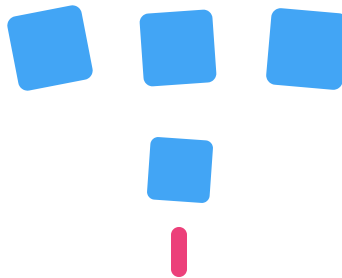

Count each shape below and write the number!

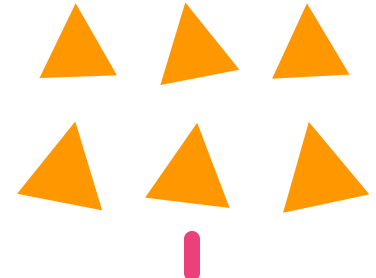

How many circles?

How many squares?

How many triangles?

Grown-up tip: cover one shape type with your hand and count just that group — sorting before counting!
